

## **Smartstream relocates North American HQ to Manhattan**

Smartstream, the trusted data solutions provider for leading global financial institutions and enterprises, today announces the relocation of its North American headquarters in Manhattan's Financial District.

Maintaining its presence in New York reinforces the company's commitment to regional growth and its dedication to meeting the rising demand for advanced, AI-driven technologies.

The North American operations will continue to be led by Samuel Hyman, Regional Head Americas, who joined Smartstream last year and has been instrumental in driving growth across the region.

Samuel Hyman, Regional Head Americas, Smartstream, commented: "This region remains one of Smartstream's most strategic growth markets. Our Manhattan location still allows us to better serve our clients and support our expanding team. Our focus is on delivering exceptional results while helping clients achieve greater efficiency, reduce costs, and manage risk in an increasingly complex regulatory environment. AI is at the centre of many conversations today, and with years of research and development, Smartstream offers some of the most advanced AI-enabled solutions in the market".

Smartstream's solutions are proven to help financial organisations and enterprises streamline operations and optimise efficiency. Smart Agents for Investigations introduces augmented and autonomous exception handling for reconciliations and back-office processes, while Air, Smartstream's AI-driven data intelligence platform, processes and analyses vast volumes of financial data in real time to deliver actionable insights.
